Strength, Speed and Conditioning Program -Pre-Season Program- 9 weeks

You can do either a 5 day/week workout or a 4 day/week

Example 5 day/wk workout:

Week #1

Mon: Day I Strength Training Workout (STW)

Tues: Speed, Agility and Quickness (SAQ) (*Linear Speed)/Plyo's Conditioning

Weds: Day II STW

Thurs: Speed, Agility and Quickness (SAQ) (*Lateral Speed)/Plyo's Conditioning

Fri: Day I STW

Sat or Sunday – Aerobic Training – 25-40 min (pick-up games, 2-4 mile run, etc.)

Week #2

Mon: Day II Strength Training Workout (STW)

Tues: Speed, Agility and Quickness (SAQ) (*Linear Speed)/Plyo's Conditioning

Weds: Day I STW

Thurs: Speed, Agility and Quickness (SAQ) (*Lateral Speed)/Plyo's Conditioning

Fri: Day II STW

Sat or Sunday – Aerobic Training – 25-40 min. (pick-up games, 2-4 mile run, etc.)

Continue this pattern...

Example of 4 day week workout

Mon: Day I Strength Training Workout (STW)

Tues: Speed, Agility and Quickness (SAQ) (*Linear Speed)/Plyo's Conditioning

Weds: Off

Thurs: Day II Strength Training Workout (STW)

Fri: Speed, Agility and Quickness (SAQ) (*Linear Speed)/Plyo's Conditioning

Sat or Sunday – Aerobic Training – 25-40 mins. (pick-up games, 2-4 mile run, etc.)

Warm-up Routines

Before each workout you must do a warm-up routine. The routines will not only help prepare you for the workout, but will also help improve your overall athleticism i.e. – speed, agility, power, balance etc.

Movement Stretching also known as “Dynamic Stretching” has been proven to be the most effective way for athletes to warm-up. It has been proven that traditional Static Stretching can actually decrease power output, i.e – performance, by 15-20%. Static stretching should be done at the end of the workout as a cool down, not at the beginning. Muscle soreness can occur after the first few sessions of this type of warm-up, but will subside as the body adapts to the movements.

Warm- up “A” – Please refer to “*Mustang Power*” web link for demonstrations of each

*Perform one set of the following movements for 10-15 yards followed by 10-15 yards of jogging.

Heel Walks

Toe Walks

Walking Knee Hugs

Walking Shin Pulls

Walking Quad Stretch

Walking Lunges (pause for a 2 count at the bottom of the lunge)

Lunge with arms straight over head, elbows locked, twist toward the inside of front leg (alt legs)

Straight Leg Kicks to opposite hand

Straight Leg Kicks with skip

Butt Kicks (rapid reps)

Backwards Butt Kicks (quick – 10 yards)

Carioca’s (grapevine) (face same direction 1x ea.)

Side shuffle 5 yd. – Sprint 20 yd. (face the same direction 1x ea)

Warm-up “B” –

Heel Walks – with toe reaches

Toe Walks – lateral (switch opposite direction _ way)

Inch worm walks (4 in a row then jog)

Lateral Lunges

Lunge w/hamstring sit-backs

Spiderman lunges

Walking Quad Stretch w/forward reach

Regular March (opposite arm and leg – point front toe up)

March w/skip

Power skips (20 yards) (2 sets)

Lateral Crossovers

Backwards pedal 10 yards – Turn 180 degrees and sprint 20

Backwards pedal 10 yards – Turn 180 degrees and sprint 20

Strength Training Program

*Please refer to “**Mustang Power**” for information regarding the following exercises.

Cycle # 1 – Weeks 1-4

Day 1

RM – Stands for Repetition Maximum. For example if you are using a 10RM when squatting this should be a resistance wt. that you can perform only 10 reps with. It is o.k. to estimate what your weight will be. If you know what your estimated 1RM is for the particular exercise you can refer the Repetition Maximum Chart on “Mustang Power”

Core Lifts

If you are not familiar, or comfortable with some of the exercises please do not perform them. Perform the exercise in ()

Rest Period – RP in between each set should be 1.5 – 2 min.

	<u>Week #1</u>	<u>Week #2</u>	<u>Week #3</u>	<u>Week #4</u>
Hang Cleans	4 x 6 (12RM)	2 x 6 (10RM)	2 x 6 (8RM)	2 x 5 (7RM)
		1 x 6 (10RM)	1 x 5 (7RM)	1 x 5 (6RM)
(Squat Jumps)	4 x 6-----			
Back Squats	1 x 10 (light)	2 x 6 (10RM)	2 x 6 (8RM)	2 x 5 (7RM)
	4 x 8 (12RM)	1 x 6 (10RM)	1 x 5 (7RM)	1 x 5 (6RM)
(Leg Press)	4 x 12 reps(15RM)	4 x 10 (12RM)	2 x 10(12RM)	2 x 10 (10RM)
			2 x 10 (10RM)	2 x 8 (9RM)

Auxiliary Lifts

The Volume (sets x reps) will stay relatively the same throughout the 4 week cycle. You can increase resistance if you feel the need. Concentrate on technique and form.

Incline DB Press	3 x 12 (15RM)
Strength Step-ups	3 x 10 (use either body weight or add 30 or 45 lbs. Olympic Bar)
V-Twists (trunk) -	2 x 15 ea. Side
One arm DB row -	3 x 10
Single Leg Straight Leg Dead Lift –	3 x 8

Core Stability –

On elbows (4 pt.), Right elbow (2 pt.), Left elbow (2 pt.) – 2 x 20-25 sec. of each
